Victor Foss
 President
FOSS PLATING CO., INC.
 8140 Secura Way
 Santa Fe Springs, CA 90670

Dear Mr. Foss:

Significant Noncompliance (SNC) for 1999

According to the Sanitation Districts' enforcement records, your company was found to be in violation of wastewater discharge permit requirements on at least one occasion in 1999. As a result of this violation, your company was included in the list of dischargers in Significant Non Compliance (SNC) for 1999. In accordance with federal regulations [40 CFR 403.8(f)(2)(vii)], the United States Environmental Protection Agency requires that sewerage agencies annually publish a list of industrial users which, during the previous twelve months, were in significant noncompliance with applicable pretreatment requirements. This list was published in the Los Angeles Times on June 5, 2000.

The Districts are sponsoring a free training seminar on August 15, and 17, 2000 to educate permittees regarding the federal SNC criteria. It is very important that a responsible official(s) from your company attend this scheduled seminar. This seminar is similar to one which was presented by the Districts' staff in March 1999. If you have already attended such a seminar before, your attendance is not necessary. Please fill out the enclosed registration form and return it to the Sanitation Districts, attention Harry Mehta, as soon as possible. Also, at this seminar the Districts' staff will be available to answer any questions you may have regarding your wastewater discharge permit requirements.

The Districts appreciate your continued attention and commitment to achieving compliance with all wastewater discharge regulations. If you have any further questions regarding this matter please contact Enforcement Project Engineer Harry Mehta at extension 2903.

Very truly yours,

Charles W. Carry
